Building Permit Fees Information Report

Report Number: 2018-16

Department(s): Financial Services

Author(s): Anita Gibson, Financial Analyst

Date: April 30, 2018

In accordance with the Procedure By-law, any member of Council may make a request to the Town Clerk that this Report be placed on an upcoming Committee of the Whole agenda for discussion.

Purpose

The purpose of this report is to provide information on the building permit fees and costs associated with delivering the services for the year 2017.

Background

In 2016, By-law 2015-58 was enacted for Building Permit fees. This fee schedule remained unchanged in 2017 and 2018.

As per the Building Code Act, 1992, a municipality is required to prepare a report regarding building permit fees collected and the costs of administering and enforcing this Act every 12 months; and, the municipality shall make its report available to the public. The purpose of this report is to meet the statutory requirement.

Discussion

The total building permit fees collected in 2017 were \$2,872,514. The operating results show that revenues exceeded expenditures in the amount of \$1,098,598. This amount was transferred to the Reserve Fund for Building Permits. There was a capital cost of \$1,828 for the Cityview upgrade which was funded by the Reserve Fund for Building Permits.

In 2017, surplus Building Permit Fees were changed from a reserve to an obligatory reserve fund. A requirement of PSAB is that obligatory reserve funds be reported as deferred revenue. This requirement is in place as provincial legislation restricts how

these funds may be used and under certain circumstances, how these funds may be refunded. As such the practice of deferring the last three months of building permit fees collected in any given year has been discontinued, as the entire balance is deferred revenue.

Also, as a reserve fund there will be an interest allocation. The interest allocation for 2017 is \$136,479. As at the end of December 31, 2017, the Reserve Fund for Building Permits had a balance of \$7,003,684 including this amount.

Attached is the Statement to illustrate building permit fees and costs associated with delivering the services for the year 2017.

Conclusion

The report will be posted on the Town's website.

Budget Impact

The Reserve Fund for Building Permit Fees is currently at 324% of total annual costs (2016 = 272%).

In 2015, Council approved a Development Application Approval Process (DAAP) Cost Recovery review, as recommended by BMA Consulting Inc. in the Building Permit Fees Report. The review recommended a target reserve fund balance of between 150% to 200% of annual building department costs.
